KEN MUNEOKA. A New Method for Mechanical Dechorionation of Ascidian Eggs ... 486

ROSARIA DE SANTIS, GENNARO JAMUNNO, AND FLORIANA ROSATI. A Study of the Chorion and the Follicle Cells in Relation to the Sperm–Egg Interaction in the Ascidian, *Ciona intestinalis* 490

Author Index for Volume 74 500

Feature f-1

The Subject Index for Volume 74 will appear in the December 1980 issue as part of a cumulative index for the year 1980.

Dramatic Growth in Biology...

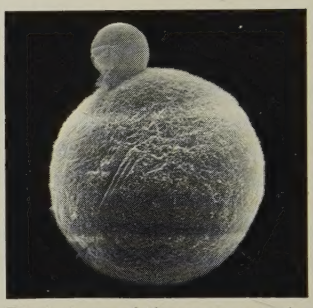
NEW! 1980

INTRODUCTION TO EMBRYONIC DEVELOPMENT

by Steven B. Oppenheimer —

A blend of pure embryology and the molecular aspects of development, by one of the nation's chief researchers in cell adhesion. The role of the cell surface in controlling developmental events is a major theme. Stunning electron micrographs appear throughout.

1980, 7½ x 9¼, Est. 416 pp.



First stage of the mouse embryo (taken from the Oppenheimer text).
